ADAPTATION FUTURES 2018

Adaptation Futures is the world's premier conference on climate change adaptation. We invite you to join over 1000 scholars, practitioners, business leaders and policymakers from around the world to connect, learn and inspire.

Adaptation Futures 2018 highlights adaptation practices and solutions in multiple sectors and from all parts of the world.

Adaptation Futures 2018 is being held at the Cape Town International Conference Centre, a world class facility in the heart of Cape Town, with easy links to the city's most famous and iconic attractions.

Adaptation Futures 2018 marks the first time the conference is held on the African continent. We aim to use this setting to foreground developing country adaptation issues and increase developing world and African participation.

SPONSORSHIP & EXHIBITION OPPORTUNITIES

We invite you to support a truly representative global conference. Choose from the following options:

- **SPONSOR ATTENDANCE GRANTS** – help build adaptive capacity in developing countries
- **EVENTS AND DELEGATE ITEMS**– gain exposure at an international and multi-sectoral conference
- **EXHIBIT AT THE ADAPTATION EXPO** – connect with the world's leading role-players in adaptation

SPONSOR ATTENDANCE GRANTS

Attendance grants will enable the participation of researchers and practitioners from developing countries to ensure that the conference provides a truly inclusive platform to debate and formulate the adaptation solutions that will shape our collective future. Sponsoring an attendance grant is a unique opportunity to build capacity for sustainable and climate resilient development in the Global South.
